Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

Rajmata Jijau Shikshan Prasarak Mandal (RJSPM), a public trust established in the academic year 2000, is dedicated to providing value-based, student-centric education to individuals from both urban and rural areas of Maharashtra. Within a short period, the trust has woven a network of educational initiatives spanning from pre-primary to professional education. In 2007, we introduced the Bachelor of Pharmacy (B. Pharmacy) degree course with the aim of offering high-quality professional education at an affordable cost to all segments of society. Our commitment is unwavering in delivering superior education to our students, and we distinguish ourselves through specific initiatives.

Distinctive Features:

Location:

Our college is strategically situated near the sacred and historic towns of Alandi and Dehu (Maharashtra), as well as the major industrial hubs of Bhosari, Chakan, and Markal. This location provides opportunities for collaboration with pharmaceutical industries.

In house Publications:

We annually publish a comprehensive Training and Placement brochure featuring details of the college and the achievements of the previous year's students. The brochure includes brief student profiles and is shared with various industries to facilitate student placement.

Our bimonthly newsletter, "Jijau Spectrum," encompasses all college activities, including publications, awards, news, workshops, etc. It is circulated to stakeholders and available on our website.

The Pharmaceutical Chemistry department produce a tabletop calendar for the year 2022, focusing on the calibration of sophisticated instruments. This calendar is distributed to alumni, employers, and organizations. It is providing insights into instrument calibration and college activities.

Collaboration:

We actively collaborate with diverse institutes and organizations for the benefit of our students. Notably, we recently partnered with PatriaMed Apothekenservice in Germany for "Placement in Germany." We organized a career guidance session on this initiative, followed by online interviews conducted by PatriaMed. The positive response from students has led to preparations for the German language examination.

Museum:

At the entrance of our building, we have established a museum comprising four departments with subject-specific miniatures. This museum serves as an experiential learning space, where each department conducts experiments aligned with the subject.

Plant QR Codes:

We have created a medicinal plant garden featuring over 60 plants with medicinal value. To enhance the learning experience, we developed QR codes for each plant, providing detailed information such as name, biological source, uses, and substitutes. Scanning these QR codes offers a wealth of information to interested individuals.

Automatic rain gauge (ARG) system:

Indian Meteorological department's Automatic Rain Gauge system (ARG) has been installed by the Indian Meteorological Department at RJSPM's College of Pharmacy. It gives information about temperature, humidity and rainfall in the area and it is available on the website of the weather department.

HAR GHAR TIRANGA

On completion of 75 years of Indian Independence, the "Azadi Ka Amrit Mahotsav" was celebrated throughout the country. With the aim of keeping the memory of the freedom struggle alive in the minds of the people and instilling the spirit of patriotism in the minds of people, the "Azadi Ka Amrit Mahotsav" initiative was implemented across the country. In the context of the above, our institute Rajmata Jijau Shikshan Prasarak Mandal also took part enthusiastically in the event under the guidance of Savitribai Phule Pune University. Total 139 students, 19 teaching and non-teaching staff took a part in this activity by holding a flag in front of them. The overall event was conducted by Prof. O.H. Kelhe and Prof. A.N. Phuge under the guidance of Honourable Principal Prof. (Dr.) K.S. Jain.

Celebration of Har Ghar Tiranga at RJSPM College of Pharmacy

INDEPENDENCE DAY

Our 75th Independence Day was celebrated at 07.30 am in the RJSPM's Educational Campus, Dudulgaon. The inauguration of program was done by lighting lamp and Saraswati Pujan by chief of guest Hon. Mr. Vilasrao Lande, President, RJSPM Educational Campus and Ex MLA of Bhosar, Dr. K. S. Jain, Principal College of Pharmacy and Prof. A. B. Kumbhar, Vice Principal College of Pharmacy, Dr. R. B. Chintamani, Principal Institute of Pharmacy, Dr. D. B. Bagul, Director of RJSPM's MBA department. After lamp lighting ceremony flag hoisting was done by the hands of Hon. Mr. Vilasrao Lande, National anthem was sung in chorus by all the people present in the campus. Students from B. Pharm, D. Pharm, Junior College and Dnyaneshkri International School presented patriotic songs, dance and speeches. Hon. Mr. Vilasrao Lande, gave valuable guidance to the students on the occasion of Independence Day. Program ended with refreshment.

GANESHOTSAV 2022-23

The Ganeshotsav-2022 was celebrated in RJSPM College of Pharmacy with great vigor and enthusiasm. On this occasion staff and students placed the Lord Ganesh idol of Natural day (Shadu mata) in the institute for 7 days from 31/08/2022 to 06/09/2022. The festival began with Grand "AARTI" on first day, at 11:00 am. After the aarti 'Prasad' was distributed to all the members present in the aarti. The various games were arranged for the students and staff like Musical Chair, Antakshari, etc. The days were filled with the grand aartis, prasad and loads of blessings from "Ganpati bappa". On 05th September 2022 there was Satyanarayan puja. Mahaprasad was arranged by college. The fun filled 7 day ended with immersion procession with 'Dhool'. Last aarti was performed by all staff and students. All danced and enjoyed the bappa's immersion ceremony. Finally last aarti was done at Akarti Ghat and bappa's idol was immersed in the river.

TEACHER'S DAY PROGRAM

RJSPM's College of Pharmacy had organized "Teacher's felicitation Program" on occasion of Teachers day for all teaching faculty members of Pharmacy and all the principles of different departments of Dudulgaon campus. Program was started with Saraswati Poojan and lamp lighting by chief guest Prof. Kiran Choudhary sir and all the dignitaries. Dr. Kishor S. Jain provided valuable information related to National education Policy 2020 (NEP). During his speech he motivated faculty members regarding their work related to student's development. In his speech he introduced about National Education Policy 2020 which is the first education policy of the 21st century and aims to address the many growing developmental imperatives of our country. Asst. Prof. Priyanka Deshpande and Asst. Prof. Shikha Shrikh coordinated the program. Prof. Aarti Gita introduced the chief guest and handled anchoring of program. After introduction, all the teaching faculties were felicitated by the principals and chief guests by offering a book on NEP and flowers. All heads of Jilgaon campus were felicitated by Dr. K.S. Jain by offering a token of appreciation with NEP book, pan and flowers. The vote of thanks was given by the Prof. Amal Kumbhar sir.

AVISHKAR COMPETITION 2022-23

RJSPM College of Pharmacy organized an in-house college level "Avishkar Competition-2022" under the auspices of Savitribai Phule Pune University on 15th September 2022. A workshop on Avishkar was also organized on 8th September 2022 to guide the students for participation. Prof. A. B. Kumbhar and Prof. S. N. Ghodekar who were the participants of state level Avishkar competition-2017 guided and motivated the students. They also resolved various queries raised by the students. In Avishkar competition-2022 total 15 teams participated from different disciplines/categories. Panel of judges evaluated the posters and participants. In Panel-1 Dr. J. S. Dhimal and Prof. P.V. Rane and Panel-2 Prof. S. N. Ghodekar and Prof. A. N. Phuge evaluated the posters. The students learnt a lot by interaction with the judges.

Evaluation of posters by judges

SEMINAR ON PLACEMENT IN GERMANY

RJSPM College of Pharmacy and Patriamed Apotheken Service OHG Germany jointly organized webinar for third year and final year B. Pharmacy students on 24th Sept 2022. The topic of webinar was "Placement at Germany". This webinar was attended by more than 80 students and Prof. Bernhard Metzger conducted the session. Different topics were discussed in this webinar like opportunities for pharmacy graduates as registered pharmacist in Germany, life in Germany, training, stipend and salary structure in Germany etc. Overall students had good interaction with speaker and interested students will also take further guidance from Prof. Bernhard Metzger if they wish to shift in Germany.

NSS DAY: TREE PLANTATION PROGRAM

The tree plantation drive was organized on the occasion of NSS day with the prior permission and guidance of Hon. Campus Director Prof. Kiran Choudhary, Dr. Kishor S. Jain Principal and Prof. A. B. Kumbhar, Vice Principal, RJSPM's College of Pharmacy, Dudulgaon, Pune. The event was carried out on 24th September 2022 at 12 pm. NSS Unit of RJSPM's College of Pharmacy, Dudulgaon organized a series of social events for the enthusiastic students to come forward and contribute for a well-being. All NSS volunteers, as well as other students of RJSPM's College of Pharmacy, Dudulgaon attended this event. This event was carried out under the supervision of Asst. Prof. Omika Kohli, NSS Program Officer. The NSS volunteer, Sanali Desai explained the history of the NSS, the principal of the RJSPM/COP told the importance of the "NSS DAY" as well as told the importance of the tree plantation and gave the importance of the trees in day to day life of living beings. NSS volunteers had taken NSS oath during the ceremony. The slogan "PLANT A TREE TODAY, THEY WILL HELPS US BREATHE TOMORROW" was given and the plantation began at 01.00 pm. Around 50 NSS volunteers along with other students had participated in this tree plantation program. In a very systematic manner, all the students got divided in different groups and planted the plants, as well as few plants were given to the honorable principal sir, teaching staff, students and to all the active participants present for the program.

"Service to Society through Excellence in Education"

As we all know Rajmata Jijau was in real sense a true Guru who inspired Shriji Maharaj and made him aware of the divinity within him. She transformed his vision into a powerful immortal and spiritual approach. Her touching words and dialogue had bonded Shriji Maharaj's heart with unbounded love and affection for each other and the country. Her teachings have been throughout his life to succeed in all difficult situations with courage and determination. With the sharpness and dedication in mind, Rajmata Jijau Shikshan Prasarak Mandal was established in 1970.

MAHATMA GANDHI & LAL BHADUR SHASTRI JAYANTI 2022

Mahatma Gandhi & Lal Bahadur Shastri Jayanti was celebrated in RJPMS's College of Pharmacy campus on 2 October. Mahatma Gandhi Jayanti is an event celebrated in India to mark the birthday of Mahatma Gandhi. The UN General Assembly announced on 15 June 2007 that it adopted a resolution which declared that 2 October will be celebrated as the International Day of Non-Violence as he was a nonviolent freedom fighter whereas Lal Bahadur Shastri was an Indian politician and statesman who served as the 2nd Prime Minister of India from 1964 to 1966 and 5th Home Minister of India from 1961 to 1963. He promoted the White Revolution – a national campaign to increase the production and supply of milk by supporting the Amul milk co-operative of Anand, Gujarat and creating the National Dairy Development Board.

Programme was started at 11:30 AM by the deep prajwalan by Vice Principal of RJPMS's college of Pharmacy Mr. Anil Kumbhar and followed by pratna puja of Mahatma Gandhi & Lal Bahadur Shastri by Associate Professor Dr. Jeevan Dhumal. Program was concluded after pratna puja by staff. Arrangement of program was done by Assistant Professor Arti Gile.

GUEST LECTURE ON TOPIC "CAREER AFTER PHARMACY"

A career guidance program was organized on 10th November 2022 for students on the topic Career after Pharmacy. The main aim of the guest lecture was to make students aware about opportunities in Pharmacy career. The students were also informed regarding the varied skills and attributes required by Pharmacy professional to succeed in the fast changing Pharmaceutical Sector.

Various new allied sectors of Pharmacy that have grown from modestly in recent days like Clinical Data Management, Pharmacovigilance, clinical trials, Medical Coding, Audit Handling were also discussed. He explained the roles and responsibilities of Medical Writing and Clinical Research. He also enlightened the students regarding various regulatory bodies in India and other countries. He acquainted students regarding some add on courses like pharmacovigilance, Clinical trials, Medical Coding, Audit Handling and Clinical Data Management. The event concluded with vote of thanks and appreciation of the resource person.

HEALTH CHECKUP CAMP

In association with Mashi Government Hospital, National Service Scheme Department of RJSPM's College of Pharmacy conducted a free health check-up camp for female students and teachers in the age group of 18 to 60 years on Saturday, November 12, 2022 in the college premises under the campaign "Mata Safe - Home Safe". In this camp weight, height, blood pressure, oxygen level and hemoglobin were examined. After the examination, iron and calcium tablets were also distributed to all the female students and teachers. Around 80 members participated in this health check-up camp. On this occasion, Principal of RJSPM's CDP Dr. K. S. Jain, Mr. Amol B. Kumbhar and National Service Scheme Department Program Officer, Mr. Omkar H. Kolhe were present.

Hemoglobin Checkup

IQA SUBMISSION

The college is participating in NAAC accreditation process. The first step of NAAC accreditation is filling of IQA. Rajmata Jijau college of pharmacy hence had successfully submitted IQA on 8th September 2022. The IQA was approved by NAAC. The college wished to improve the quality of teaching learning methods, research facilities and infrastructure facilities. Hence it was decided to participate in the NAAC accreditation process.

NAAC 'SSR' SUBMISSION

The IQA application of college was approved on 15th September 2022. The next step for NAAC accreditation process is the submission of Self Study, which was successfully completed by the college on 27th October. In this SSR the details of 7 criteria as prescribed by NAAC were submitted. After submission of SSR the student satisfaction survey was initiated by NAAC and was successfully submitted by the students. EVA clarifications were received in 1 Nov 2022 which was submitted on 15th Nov 2022. On 15th December 2022 college prequalified for the NAAC.

Issue-6 (Oct 2022)

NAAC EXPERT VISIT - PROF. PRASAD KADAM

As the college was going for NAAC accreditation process a visit of expert from MMCOOP Mr. Prasad Kadam was organized on the 7th and 8th October 2022. He was welcomed by Dr. K. S. Jain with a bouquet of flowers. He went through each of the 7 criteria minutely and gave his valuable suggestions and also guided regarding the technical issues of the HIR portal.

His inputs proved to be beneficial and of great importance to the college of its SSR submission.

Prof. Prasad Kadam going through each criteria minutely

NAAC EXPERT VISIT - HON. PROF. R.S. MALI

An expert in NAAC Hon. Prof. R.S. Mali Vice-Chancellor of North Maharashtra University and NAAC Co-ordinator, IQAC Centre SPPU Pune was visited to RJSPM college on 12th October 2022. He was welcomed by Prof. K.Y. Chaudhari Sir Campus Director and Dr. D.B. Bagul Director of RJSPM's MBA Department.

He evaluated NAAC preparedness of the college and gave valuable suggestions regarding the upcoming SSR submission.

Prof. Mali guiding the faculty regarding NAAC

Welcome of Hon. Prof. R.S. Mali

"Service to Society through Excellence in Education"

As we all know Rajmata Jijau was in real sense a true Guru who inspired Shivaji Maharaj and made him aware of the divinity within him. She transformed his vision into a powerful, immortal and spiritual approach. Her touching words and dialogue had bonded Shivaji Maharaj with unbounded love and affection for each other and the country. Her teachings helped him to put his life to succeed in all difficult situations with courage and determination. With the same spirit and dedication in mind, Rajmata Jijau Education Prasarak Mandal was established in 2000.

WEBINAR ON SKILL DEVELOPMENT

On 18th November a webinar on "Skill Development Program" was organized in RJSPM college of Pharmacy which was conducted by Ms. Apurva Deshmukh in association with Global Talent Track (GTT)

She discussed the various points with the students like-

1. Introduction to Skill Development Programs.
2. Offering vocational courses simultaneously with the regular degree courses.
3. Helping students to discover their interests, aptitudes and potentialities.
4. Maximizing their potentialities and boosting self-confidence.

This program was specially organized for students with family income less than 4 lacs PA. As per the program trained students will be given e-certificates and 100% placement Assistance. The webinar was coordinated by co-curricular in charge Prof. Vipra Valdiya under guidance of Principal K.S. Jain. The session was concluded by giving vote of thanks and Appreciation of resource person.

TEACHERS - THE SILENT REVOLUTIONARIES

A webinar organized under Faculty Development Program on "Teachers - The Silent Revolutionaries" was held on 26 November 2022, 5 pm in RJSPM College of Pharmacy. The Speaker - Mr. Narendra Godani is a life coach, parenting guide, trainer and modern age philosopher. He is the founder of Keep Moving Movement (KMM) Life School, an institution focused on inspiring individuals to follow their dreams and explore their potential. He had an interactive session with teachers highlighting the importance of teachers in a student's life. He explained how we teachers can impact the life of thousands of future citizens of India. Some of them go ahead to become great achievers after getting right guidance from teachers. He discussed how Covid-19 had impacted teaching and learning to a great extent and now everyone is contented after we have resumed physical sessions. He asked the teachers to contribute their part in making India better educational centers until 2030. 15 Faculty members were present for this program. The program was organized under the guidance of Principal Dr. K.S. Jain Sir.

26/11 ATTACK ANNIVERSARY

26th November 2022 marked the 14th anniversary of the terrorist attacks in Mumbai on November 26, 2008, in which 166 people including 18 security personnel were killed and another 288 were injured. The RJSPM's College of Pharmacy paid tribute to the brave soldiers who were martyred in the 26/11 attacks. Prof. Mr. Omkar Kolhe presented a video of the 26/11 attack remembering the 60 hour siege in Mumbai. Students of the Second year and final Year B. Pharmacy were present during this program. Ms. Sakshi Bawale performed a patriotic song for brave soldiers. A vote of thanks was expressed by Ms. Mitali Dongare. 92 students and 15 staff members participated in this program. The overall program was conducted under the guidance of Principal Dr. K.S. Jain.

MAHATMA PHULE PUNYATITHI

Mahatma Phule Punyatithi was celebrated on 28th November 2022 at 10:00 am in the RJSPM's Educational Campus, Dudulgaon.

Jyotirao Govindrao Phule, also known as Mshatma Jyotiba Phule (11 April 1827 - 28 November 1896) was an Indian social activist, thinker, anti-caste social reformer and writer from Maharashtra. His work extended to many fields, including eradication of untouchability and the caste system and for his efforts in educating women and oppressed caste people. He and his wife, Savitribai Phule, were pioneers of women's education in India. Phule started his first school for girls in 1848 in Pune. He, along with his followers, formed the Satyashodhak Samaj (Society of Truth Seekers) to attain equal rights for people from lower castes.

The beginning of program was done by Deep Prajwalan and Mahatma Phule pratima puja by chief guest Hon. Mr. Vilasraoji Lande, President, RJSPM Educational Campus and Ex MLA of Bhosari, Mr. Ganesh Shinde, Trustee member, College of Pharmacy and Prof. A. B. Kumbhat, Vice Principal College of Pharmacy, Mr. Sagar Kulkarni Principal School of Nursing Pharmacy. Program was concluded after pratima puja by Staff and students.

SANVIDHAN DIN

Constitution Day (National Law Day), also known as Samvidhan Din, is celebrated in India on 26th November every year to commemorate the adoption of the Constitution of India. On 26th November 1949, the Constituent Assembly of India adopted the Constitution of India, and it came into effect on 26th January 1950. Samvidhan Din was celebrated in RJSPM's College of Pharmacy, Dudulgaon on 26th November 2022.

The program was started by Reading the Preamble to the Constitution. Prof. A.N. Phuge discussed the History of the Constitution. He explained the role played by Dr. Babasaheb Ambedkar in the development of the Indian constitution. He appealed, that students should respect Indian Constitution and also should understand every aspect of the Constitution.

Students of the Second year and final Year B. Pharmacy were present during this program. Ms. Shrutika Khase and Ms. Minnal Nagarkar sang a song to express the importance of the constitution and Ms. Anshu Kamthe expressed her love on the constitution in the form of speech. At the end of the program, the fundamental duties of citizens in the constitution were read out by Ms. Sachita Patole. A vote of thanks was expressed by Ms. Sakshi Bawale. Prof. O.H. Kolhe handled the technical session of the program. The overall program was conducted under the guidance of Principal Dr. K.S. Jain.

ALUMNI MEET DECEMBER 2022

Rajmata Jijau Shikshan Prasarak Mandal's College of pharmacy and Rajmata Jijau pharmacy college alumni association jointly organized the grand alumni meet on 24/12/2022 in college campus. The main aim of the alumni meet was to strengthen the link between RJSPM's College of pharmacy and Alumni students. There were a total 105 students from different batches in this event.

Hon. Shri Vilasrao Lande (President RJSPM) speech during event

All Guests and students in event

This event was conducted under the guidance of Principal Dr. Kishor S. Jain. For this event Hon. Mr. Vilasraoji Lande (President RJSPM) was present and wished students for their best future, congratulated the students who became successful entrepreneurs. Hon. Mr. Sudhir Mangase (Secretary RJSPM), Hon. Mr. Ajit Gavhane (Treasurer RJSPM) and Hon. Mr. Vilasraoji Lande (Trusty / Corporate PCMC) also attended the event and also interacted with alumni and appreciated the students for holding various positions and responsibilities in various organizations, private sectors and academic institutions.

The inaugural session was attended by staff members and students of RJSPM College of pharmacy. In this session the publication of the Alumni calendar took place and the calendar was distributed to all alumni with a registration kit.

PRINCIPAL'S MESSAGE

Dr. KISHOR S. JAIN
Principal

The year 2023 for our world has been shaped by the spirit of innovation and technology. In the ever-evolving world, we must not only adapt but also lead. The world is in a constant state of flux, and the skills that we need today are different from the skills that we needed yesterday. The field of education is no exception. We must embrace change and innovation to meet the needs of our students. At Rajmata Jijau Shikshan Prasarak Mandal's College of Pharmacy, we are committed to providing a world-class education that equips our students with the skills and knowledge they need to succeed in a rapidly changing world. We are proud to be part of a community that values excellence and innovation. We are committed to providing a world-class education that equips our students with the skills and knowledge they need to succeed in a rapidly changing world. We are proud to be part of a community that values excellence and innovation.

- As a member of a team, plan the work for efficient use of time and resources, think and evaluate scientifically, ethically and critically.

Message By Dr. Asaf Shamsi

I congratulate RJSMPD for their ongoing dedication to publish a desktop calendar which, apart from being utilitarian in the most basic way, to uniquely serve and educate students, teachers and professionals in our industry on various subjects which are critical to achieving the highest standards of excellence and regulatory compliance, thereby contributing in a major way to the quality of human health and life. The topic selected for this year's calendar is "Calibration". All kinds of measurements form the basis of many aspects in our lives, ranging from the simplest, such as dimensions, distances, weights and volumes, to the extremely complex, such as the calibration in various ways of the efficacy and safety of medicines designed to save human lives. Accuracy is a key metric in both manufacturing, as well as physical and chemical analytical processes when it comes to the quality, efficacy and safety of a medicinal product. The importance of accuracy, therefore, illustrates the importance of calibration. Calibration ensures the accuracy and consistency for all measuring instrumentation by comparing against appropriate references, and then making adjustments as necessary. It maintains accuracy, standardization and repeatability in measurements, and assures reliable benchmarked end results.

The two key terms where calibration is critical are:
Accuracy in quality control processes: This is to ensure that you are not accepting and using raw materials that should be rejected, or producing finished products which fail the established specifications.
Accuracy in manufacturing processes: This is to create more efficiency in manufacturing operations by ensuring that equipment operates as expected. Improperly calibrated equipment will result in unpredictable and inconsistent outcomes. Without regular calibration, manufacturing and analytical process instruments will provide inaccurate measurements and threaten quality, resulting in products that cannot be guaranteed to meet specifications. This year's calendar addresses the calibration techniques of some of the most common (and essential) instruments in every pharmaceutical quality control laboratory. The presentations are informative, succinct, and most importantly, actionable.

Dr. Asaf Shamsi
CEO & Director,
International Operations

Calibration

Calibration is the determination of the experimental relationship between the quantity being measured and the output of the device which measures it. When the quantity measured is obtained through a recognized standard of measurement.

Importance of calibration :

Calibration may be required for the following reasons:

- To determine the accuracy of the instrument readings.
- To establish the reliability of the instrument i.e. that it can be trusted.
- To ensure readings from an instrument are consistent with other measurements.
- A new instrument installed.
- After an instrument has been repaired or modified.
- Moving from one location to another location.
- When a specified time period has elapsed.
- When a specified usage (operating hours) has elapsed.
- Before and/or after a critical measurement.

PROCESS CALIBRATION

Instrument calibration is one of the primary processes used to maintain instrument accuracy. Calibration is the documented comparison of the measurement device to be calibrated against a traceable reference device.

NOTES

Ever tried. Ever failed. No matter. Try again. Fail again. Fail better

1. Abbe's Refractometer

Purpose/ Use

To determine refractive index of a pure compound.

Introduction

The refractive index is a physical property that is characteristic of a pure compound and it can be used to confirm the identity of a compound or to assess its purity, by comparison with a known (literature) value.

Principle

The general principle of refraction is based on which a light ray moves from one material to another at an angle, it changes direction. Refractive index is the ratio of the angle of refraction to a constant versus that in a material of interest.

Instrument

Refractive Index:

The ratio of the velocity of light in a vacuum to its velocity in a specified medium.

Instrumentation

- Eyepiece
- Fine adjustment screw
- Mirror
- Prism

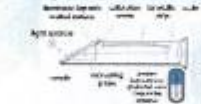

Calibration

Sr.No	Reference Liquids	Refractive Index
1	Carbon Tetrachloride	1.4602
2	Toluene	1.4969
3	Water	1.3325

Frequency of calibration:

Once a month.

Working of Abbe's Refractometer:

Working

- A sample is placed between a measuring prism and a small cover plate.
- Light traveling through the sample is either passed through to the reticle or totally internally reflected.
- The net effect is that a shadow line forms between the illuminated area and the darkness.
- It is where this shadow line crosses the scale that reading is taken.

2. Melting Point Apparatus

Purpose/ Use

Determination of melting point.

Introduction

This apparatus is useful in determining the melting point of any substance in small quantities up to 300°C.

Principle

It consists of an aluminum block that accepts three capillary tubes and mercury thermometer and the block is heated by two elements clamped to the sides. The built-in lamps provide uniform and shadow less illumination of the sample tube which is viewed by the magnifying glass.

Instrument

Digital Melting Point Apparatus

Gallenkamp Melting Point Apparatus

Frequency of calibration:

Once a month.

Instrumentation

Melting point apparatus consists of:

- An electronic controller with indicator
- An ON/OFF switch
- A pilot lamp
- Magnetron
- A thermometer range selector switch

Old Technique for melting point determination

The temperature at which solid changes its state to liquid at atmospheric pressure is called the melting point of that liquid. This is the point at which both liquid and solid phase exists at equilibrium. The melting point of the substance also varies with pressure and is specified at standard pressure.

Calibration

Melting point apparatus should be calibrated with following primary standards

Reference Substances	Standard Range
Vanillin	87.0°C – 88.0°C
Acetanilide	114.0°C – 116.0°C
Urea (finely crushed)	132.0°C – 136.0°C
Sulphonamide	164.5°C – 166.5°C
Caffeine (dried at 100°C)	234.0°C – 237.0°C
Dichlorac Sodium	277.0°C – 283.0°C

Melting Point:

The temperature at which solid changes its state to liquid at atmospheric pressure is called the melting point of that liquid. This is the point at which both liquid and solid phase exists at equilibrium. The melting point of the substance also varies with pressure and is specified at standard pressure.

Calibration

Melting point apparatus should be calibrated with following primary standards

Reference Substances	Standard Range
Vanillin	87.0°C – 88.0°C
Acetanilide	114.0°C – 116.0°C
Urea (finely crushed)	132.0°C – 136.0°C
Sulphonamide	164.5°C – 166.5°C
Caffeine (dried at 100°C)	234.0°C – 237.0°C
Dichlorac Sodium	277.0°C – 283.0°C

Frequency of calibration:

Once a month.

Instrumentation

Melting point apparatus consists of:

- An electronic controller with indicator
- An ON/OFF switch
- A pilot lamp
- Magnetron
- A thermometer range selector switch

Old Technique for melting point determination

Digital Melting Point Apparatus

Gallenkamp Melting Point Apparatus

3. Polarimeter

Purpose/ Use

Optical rotation

Introduction

It is a scientific instrument used to measure the angle of rotation caused by passing plane polarized light through an optically active substance.

Principle :

Some chemical substances are optically active and they have the ability to rotate the plane of plane polarized light either to the left (counter-clockwise) or right (clockwise) when passed through their solutions. The extent by which the light is rotated is known as the angle of rotation. Depolarized light from the light source is first polarized. This polarized light passes through a sample cell. If an optically active substance is in a sample tube, the plane of the polarized light is rotated. The rotation is detected by looking through the analyzer as a change in the intensity of transmission.

Instrument

Reference: Instrumental method for organic analysis

Inventor: L. J. Biot

Frequency of calibration:

Once in three months.

Instrumentation

- 1) Light source
- 2) Monochromator (filters out all but a specific wavelength of light)
- 3) Polarizer (converts the light beam to plane polarized light)
- 4) Sample tube (holds the sample being measured)
- 5) Second polarizer to determine the degree of rotation)
- 6) Light detector.

Calibration

Open the instrument as per SOP and Calibrate Polarimeter.

Weight 8 gm, 9 gm, 10 gm, 11 gm and 12 gm of sucrose in 100 ml volumetric flask and make up 100 ml volume with water.

Measure optical rotation of prepared solution at 25°C in 2 dm tube at 589 nm. Calculate SOR

Acceptance - Accuracy = SOR for 10% is 66.5° ± 0.10

Linearity = Correlation coefficient = 0.995

Formula for SOR

(Specific optical rotation)

$$[\alpha]_D^{25} = \frac{\alpha}{l \cdot c}$$

- ≡ Specific rotation
- ≡ Temperature
- ≡ Pathlength
- ≡ Observed rotation
- ≡ Concentration
- ≡ Pathlength

6. UV - Visible Spectrophotometer

Purpose/ Use

- Structure elucidation
- Detection of impurities
- Qualitative and Quantitative analysis

Introduction

UV-visible spectroscopy measures the response of a sample to ultra violet and visible range of electromagnetic radiation. Molecules have either n, π or π or π electrons. These electrons absorb UV radiation & undergoes transitions from ground state to excited state.

Principle

The principle is based on the measurement of spectrum of a sample containing compounds/molecules. Spectrum is a graph of intensity of absorbed or radiation by sample versus frequency (ν) or wavelength (λ). The absorption of UV radiation brings about the promotion of an electron from bonding to antibonding orbital. The wavelength of radiation is slowly changed from minimum to maximum in the given region, and the absorbance at every wavelength is recorded.

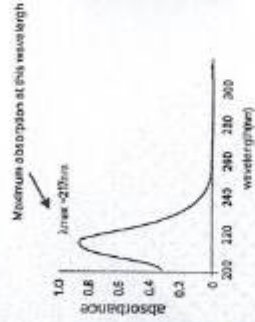

Instrumentation

- Light source
- Sample holder
- Diffraction grating in a monochromator or a prism to separate the different wavelengths of light
- Detector
- Recorder

Calibration

Calibration of UV - Visible spectrophotometer is done by following parameters:

- Wavelength accuracy
- Linearity
- Stray light
- Resolution
- Photometric accuracy
- Noise
- Baseline flatness
- Stability

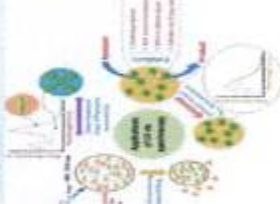

Inventor

Wilhelm Herschel

• Frequency of calibration: Once a month.

7. Fourier Transform Infrared Spectrophotometer (FTIR)

Purpose/ Use

Structural elucidation

It is more advanced infrared Spectrophotometer. Produces the infrared spectra by a procedure based on Interferometry.

Principle:

The instruments are normally based upon the Michelson Interferometer in which the incident beam from an infrared source is split into two beams by a self-aligned 45° mirror so that the resulting beams are at right angles to each other. If an absorbing material is placed in one of the beams, then the resulting interferogram will carry the spectral characteristics of the sample in the beam.

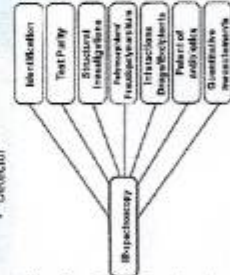

Instrument

Frequency of calibration: Once in three months.

- Instrumentation
- Source
 - Interferometer
 - Detector

Inventor

Albert Michelson

8. High Performance Thin Layer Chromatography (HPTLC)

Purpose/ Use
Separation of components.
Detection of impurities.

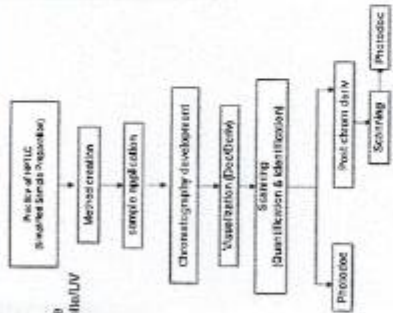

Introduction

High-Performance Thin Layer Chromatography is the most versatile technique and is known for its uniformity, purity, profile, assay values, precision, and accuracy of results. It can handle several samples. It is time-saving and the most economical. It speeds up analysis work which is usually not possible with other parallel, available chromatographic techniques. The scope of hybridization of HPTLC with other analytical techniques provides good results. Its hybridization with Mass/Infrared/ Laser spectroscopy, etc. Opens a new dimension that makes it most prestigious among analytical chemists.

Instrument

Frequency of calibration:
Once a month.

Dr. Bhanu Singh

9. High Performance Liquid Chromatography (HPLC)

Purpose/ Use
Separation, identification and quantification of compounds.

Introduction

High Performance Liquid Chromatography (HPLC) is a process of separating components in a liquid mixture. A liquid sample is injected into a stream of solvent (mobile phase) flowing through a column packed with a separation medium (stationary phase).

Principle

The purification takes place in a separation column between a stationary and a mobile phase. The stationary phase is a granular material with very small porous particles in a separation column. The mobile phase, on the other hand, is a solvent or solvent mixture which is forced at high pressure through the separation column.

Instrument

Frequency of calibration:
Once in six months.

10. Gas Chromatography (GC)

Purpose/ Use:
Separation and identification based on volatility of compounds.

Introduction

It is a process of separating component(s) from the given crude mix by using a gaseous mobile phase. It involves a sample being vaporized and injected onto the head of the chromatographic column. The sample is transported through the column by the flow of inert, gaseous mobile phase. The column itself contains a liquid stationary phase which is adsorbed onto the surface of an inert solid.

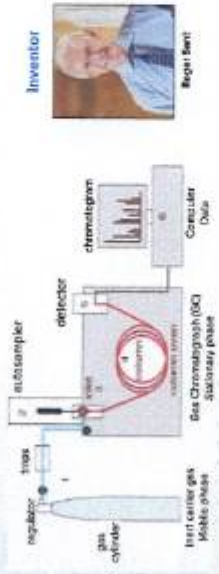

Frequency of calibration

Once in three months.

Instrumentation

- It consist of:
1. Flowing mobile phase
 2. An injection port
 3. A separation column
 4. An oven
 5. A detector

Instrument

Inventor

Robert Scott

11. Karl Fischer Apparatus

Purpose/ Use
Determine amount of moisture content in a sample.

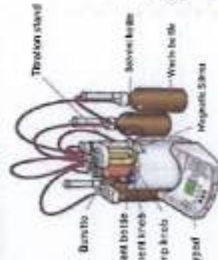

Introduction

The most extensively employed chemical method for water determination is probably the Karl Fischer procedure, which finds use not only in the pharmaceutical, but also in the food, chemical and petrochemical industries.

Principle

The Karl Fischer reagent consists of a solution of iodine, sulphur dioxide and pyridine in dry methanol. This is titrated against a sample containing water, which causes a loss of the dark brown colour.

Instrument

Inventor

Karl Fischer

Instrumentation

- Drying tube
- Sample injection cap
- Electrode analysis
- Drain cock
- Cathode chamber
- Detection electrode
- Filter
- Anode chamber
- KF reagent.

Frequency of calibration:

Once a month.

Basic ingredients of KF reagents

- Iodine
- Sulphur dioxide
- Buffer
- Solvent
- Pyridine
- Methanol

12. Hot Air Oven

Introduction

Hot air ovens are electrical devices that are used for drying. A thermostat is used to control the temperature. Its double-walled insulation keeps the heat in and conserves energy, the inner layer being a poor conductor and the outer layer being metallic.

Principle

Hot air ovens use extremely high temperatures over several hours for the drying of different materials. The ovens use conduction for drying the items, by heating the outside surfaces of the items, which then absorb the heat and moves it towards the center of the item.

Instrument

Instrumentation

- An insulated chamber surrounded by an outer case containing electric heaters.
- A fan.
- Shelves.
- Thermostat.
- Door locking controls.

Frequency of calibration: Once in a month.

Calibration

- For the calibration of hot air oven use a standard thermometer ranging up to 300 °C.
- Start the calibration procedure after 1 hour of starting the oven.
- Set the oven at desired temperature.
- Put the standard thermometer for 30 minutes on the upper shelf of the oven and close the door of the oven.
- After 30 minutes open the door of the oven and read the temperature of standard thermometer randomly and match the observed temperature of the thermometer.
- Repeat the above procedure by putting the thermometer in lower shelf for 30 minutes.
- The observed temperature of the thermometer in both shelves should be ± 2.0° C tolerance limit to the set temperature value.

Inventor

Louis Pasteur

APPLICATIONS OF HOT AIR OVEN

- Used to sterilize equipment.
- Used to dry reagents, reagents, and samples.
- Used to dry the media for microbiology.
- Used to dry the media for microbiology.

Dear Aditya and Suraj,

Thank you for the update!

Heartiest Congratulations on clearing A2!!! I am confident you'll come through with flying colours in B2. Stay dedicated! This morning, I've added you in our WhatsApp applicant group. Any questions you can write us a mail or in the group.

Attaching Bernhard Sir in this mail.

We'll soon come back to you with the future process regarding translations etc. Kindly start collecting all the your documents. Attaching the list with this mail. The documents with 3 months validity, we do towards the end. Meaning after clearing your B2 and all other documents prepared.

Another request : this is not mandatory. I wish you get your car driving license done in India. Please learn how to drive a car as you will need it here. It will get easier to obtain a German license when you have a valid Indian one.

Wishing you all the very best! We stay connected.

Looking forward to seeing you soon.

Mit freundlichen Grüßen

Medicinal plant garden with QR codes

We've cultivated a diverse medicinal plant garden featuring over 60 species, each adorned with QR codes for easy access to comprehensive plant information. This interactive initiative enhances knowledge about the therapeutic properties of these plants, fostering a deeper understanding of their medicinal benefits and promoting sustainable healthcare practices. To enhance the learning experience, we developed QR codes for each plant, providing detailed information such as name, biological source, uses, and substitutes. Scanning these QR codes offers a wealth of information to interested individuals.
