POLICY DOCUMENT FOR ENERGY USAGE

RJSPM's College of Pharmacy follows energy usage policy which is designed for systematic energy management to minimise its impact on the environment. The policy implies to identify alternative natural renewable energy resources to reduce the burden of cost as well as pollution and to find out answer to the impending energy crisis. The college believes in reducing the consumption of electricity produced by non-renewable resources by switching to renewable energy sources like solar energy for purpose of electricity requirement of the campus. We commit to install and use environment-friendly electrical appliances that help to save energy. The college uses power saving equipments such as LED lighting, energy efficient equipments and electronic appliances like CCTVs, Computers etc.

Natural renewable energy sources like solar energy have remarkably reduced the electricity bills of the campus to the negative side.

Policies:

- To install energy efficient energy lights LED's in entire campus, to lower energy consumption, decrease maintenance costs and to save the energy and expenses.
- To prefer regular use of energy efficient equipments over conventional equipments.
- To conduct regular energy audits and follow the instructions and advices given by auditing agency.
- RJSPM's College of Pharmacy has installed 3 phase solar rooftop power plant of capacity 10 KWP.
- To reduce air pollution in college campus we promote use of bicycles, public transportation and pedestrian-friendly roadways and also we restrict entry of automobiles in college campus.
- To take more initiatives for continuous decrease in energy usage.
- To promote use of recent advanced technology to decrease energy consumption.
- To ensure the accessibility of required resources to accomplish our objectives.

Management of the various types of degradable and non-degradable waste

Policy for management of degradable and non-degradable waste

RJSPM's COP has concern to safeguard environment, health and well-being through implementation of effective waste management practices such as segregation of waste and recycling of it. There are following types of wastes generated in the college as,

- 1) Solid waste management
- 2) Liquid waste management
- 3) E-waste management

Policy Objectives:

The objectives of management of degradable non-degradable and waste policy are:

1. Disposal of solid waste through segregation, collection and treatment and disposal in an environmentally friendly manner.
2. To encourage environmental awareness in order to enhance and encourage related to waste minimization, reuse and recycling of waste.
3. Appropriate disposal and handling of different types of wastes.
4. To decrease consumption and the amount of waste produced as well as encourage for recovering and recycling waste where possible.
5. To conduct various awareness programmes such as cleanliness drives and plastic free activities.
6. To utilize solid waste in the form for compost.
7. To collect and dispose E-waste with the help of recycling agency.
8. To dispose liquid waste generated in laboratories after pre-dilution with water in soak pit.

Solid waste management:

- Solid waste is segregated at source and collected by housekeeping staff to dispose off properly. Dustbins have been kept throughout campus for waste segregation.
- Single-use plastic stuffs such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among all teaching, non-teaching staff and students.
- Some of the common solid wastes include daily garbage comprising of white used papers, card sheets and materials, rubber waste, plastics, cardboard materials, etc. These are collected in dustbins placed in the campus. Collected solid waste handed over to municipality vehicle for proper disposal.
- For disposal of papers "Recyclers India Shredding Services" an agency in Pune is engaged for shredding services.
- Institute collects plant debris and put it in the solid waste disposal compost pit.
- Institute has installed sanitary napkin vending and disposal machine, which helps in instant disposal of used napkins in a very scientific and hygienic way without generating harmful emissions.

Liquid waste management:

- Liquid waste management is a process used for avoiding the release of harmful chemical pollutants into waterways.
- As institute is a Pharmacy college, during practicals lots of chemical waste is generated. To avoid the harmful effect of generated liquid chemical waste, college disposes this liquid waste in soak pit after pre-dilution with water.

Liquid waste management: soak pit

E-waste management:

- Electronic waste generated is known as e-waste. E-waste is produced when and electrical equipments has reached the end of its useful life.
- E-waste is generated in institute such as broken pen drives, different parts of computer, cables and other generated E -waste is collected in E-waste store area.
- Institute has tie up with authorized e-waste collection agency, "Kuldeep E-waste disposals" which periodically collects E-waste from institute for its safe recycling and disposal.

Water conservation facility: Rain water harvesting

Rain water harvesting is a system which includes the collection and storage of rain water to increase the underground level of water. The RJSPM's COP has implemented the Rain Water harvesting project. The rain water falling on the terrace is collected through pipes then it is collected in tank and is used for increasing the underground water level.

WATER CONSERVATION FACILITY

➤ Construction of tanks

In RJSPPM's college of pharmacy, Municipal cooperation water supply and bore well is the sources of water supply in college campus. Our college is aware about the water conservation measures and problems associated water shortage so that, in college campus we follow the practices for water conservation and efficient use of available water. Water tanks are constructed in campus for proper storage of water. Water is pumped into storage tanks located at different places in the campus. There are presence overhead storage tanks. The water is distributed through pipe network in college campus. Maintenance of water bodies and distribution system is periodically carried out to avoid the loss of water by leakage.

POLICIES FOR ENVIRONMENTAL AND GREEN CAMPUS INITIATIVES

Environmental and Green campus:

Rajmata Jijau Shikshan Prasarak Mandal's College of Pharmacy (RJSPM's COP) has taken initiatives to implement eco-friendly practices in the campus. A green campus is a concept where continuous efforts are taken to establish environmentally sustainable and eco-friendly practices. RJSPM's COP is regularly engaged in a variety of eco-friendly practices in our campus such as tree plantation, installation of solar energy panels etc. Efforts are being made to develop the campus on green concepts, particularly concentrating on water conservation, use of alternative and renewable sources of energy, use of different energy conservation methods, solid waste management, E-waste management etc.

Scope of the Policy:

The Green Campus, Energy and Environment Policies will develop exciting new practices that encourage students in creating positive change. Green campus is achieved by making significant progress in the campus in collaboration with community. The Institute has performed various protocols and programmes under green campus initiatives.

Objectives of the green campus program:

- To protect and preserve ecological systems and natural resources within the campus.
- To incorporate environmental initiatives into policies, plans and programmes for social development and outreach activities.
- To continuously expand our contribution to climate protection and adaptation to climate change and to the conservation of comprehensive resources.

- Effective use of conventional sources of energies for daily power needs, appropriate disposal and handling of different types of wastes etc.
- Everyone at the RJSPM's COP will work together to encourage a beliefs of self-sustainability and make the whole campus environmental friendly.
- To constantly improve the effective use of all natural resources like energy, water etc.
- To decrease consumption and the amount of waste produced as well as encourage for recovering and recycling waste where possible.

Major points focused under policies are:

- Clean campus initiatives
- Restricted entry of automobiles in college campus
- Pedestrian –friendly pathways
- Ban on the use of plastics
- Availability of sufficient dustbins for collection of different types of garbage
- Organization of campus cleaning activities and programmes
- Plastic collection drives
- Environment promotional activities and programmes
- Landscaping with trees and plants
- Maintenance of medicinal plant garden
- Water conservation system
- Availability of sanitary napkin disposal equipment
- Solid waste management processes
- E-waste management processes
- Environment-centric student societies and department activities
- Green Audit
- Energy Audit

➤ Plastic free week activity

RJSPM's COP actively coordinates cleanliness activities in the college campus and beyond the campus by organizing different activities like Swachh Bharat Abhiyan, Sawchata high seva (Cleanliness is service), Swaccha wari-Swasta wari (Clean pilgrimage - healthy pilgrimage) etc. The entry of automobiles inside the campus is restricted to reduce environmental pollution of campus. We encourage our students and staff to use public transportation. Single-use plastic stuffs such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among all teaching, non-teaching staff and students. The NSS and SDO team of our college conducts various programs of cleaning the campus. Landscaping initiatives are best methods to build awareness around the environment. The landscape of trees and plants provide the students and staff with clean and cool air and a soothing environment. We conduct tree plantation activities through NSS team.

We have Medicinal plant garden with well-planned and classified cultivation of medicinal plants. Garden has more than 50 species of medicinally important plants. These plants are particularly used by students for their understanding of practical and theory concepts. Institute has installed sanitary napkin vending and disposal machine, which helps in instant disposal of used napkins in a very scientific and hygienic way without generating harmful emissions. The Municipal Corporation's water supply and bore well are the sources of water supply to the college campus. Our college is aware about the water conservation measures and problems associated with water shortage and therefore we follow the practices for water conservation and efficient use of available water. Water tanks are constructed in campus for proper storage of water. Water is pumped into storage tanks located at different places in the campus. Overhead storage tanks are also available. The water is distributed through pipe network in college campus. Maintenance of water bodies and distribution system is periodically carried out to avoid the loss of water by leakage. Some of the common solid wastes include daily garbage comprising of white used papers, card sheets and materials, rubber waste,

plastics, cardboard materials, etc. These are collected in dustbins placed in the campus and disposed in ecofriendly manner on daily basis. Separate dustbins are kept in campus for dry and wet waste. The glassware waste is collected and disposed properly. For disposal of papers “Recyclers India Shredding Services” an agency in Pune is engaged for shredding services. We collect E-waste and dispose it properly with the help of agency “Kuldeep E-waste disposals”.

The college aims to regularly conduct a Green Audit of our college campus to assess our strengths and weaknesses and to further our goals of long-term sustainability. A green audit is a useful tool to determine how and where most energy or water or resources are being used. An Energy Audit is conducted and required to further reduce its carbon footprint. The importance of reducing energy consumption cannot be overstated. The energy audit, with its specialized tools will identify wastage of energy. Such an inspection often reveals several different flaws which cause a loss of significant amounts of energy which the college will not be able to detect.

To create awareness of problems associated with increased use of plastics and to minimise the potential harmful effects of plastic to environment our college has organized Plastic-free Week 2021 in association with Sweden Alumni Network from 18th to 24th October 2021. Activities in this week were an interactive online and offline session to give thought and spread awareness about avoiding the use of “Single Use Plastic”.

Tree Plantation: 26th March 2022

Tree plantation activity was organized as a part of NSS activity. The event was carried out on Saturday 26th March 2022 from 10.30 am to 2.00 pm. NSS volunteers and students of RJSPM'S College of Pharmacy participated in this regular NSS activity. Trees represent life, growth, peace and nature. They produce oxygen, clean soil, prevent drought, control flood related disasters, prevent soil erosion, improve physiological, mental and spiritual health, and also reduce carbon footprints. Keeping this in mind neem, almond sapling were planted in the premises of RJSPM College of Pharmacy. In order to support restoration the eco-balance of afforestation tree plantation drive was conducted with sincerely by all present there. The event was coordinated by Prof. G. R. Sakhare NSS coordinator under guidance of Principal Dr. K S Jain and Vice Principal Prof. A R. Kumbhar

“Awareness Programmes to Avoid the Use of Single Use Plastics”

Name of Activity: “PLASTIC FREE WEEK 2021”

RJSPM's College of Pharmacy has Organised Plastic-free Week 2021 in association with Sweden Alumni Network India Maharashtra & Goa chapter from 18 October to 24 October 2021. Activities in this week was an interactive online and offline session to give a thought, spread awareness, and bring change in habits towards plastic usage as well as to avoid the use of single use plastics.

This 7-day challenge was supported by Swedish Institute and was executed by INNSET in collaboration with the Consulate General of Sweden, Mumbai, Business Sweden, MES'S College of Pharmacy, Rajmata Jijau college of Pharmacy and Adrish Zero Waste Organic Lifestyle chain.

While plastic has many valuable uses, we have become addicted to single-use or disposable plastic with severe environmental consequences.

Around the world, one million plastic drinking bottles are purchased every minute, while 5 trillion single-use plastic bags are used worldwide every year. In total, half of all plastic produced is designed to be used only once and then thrown away. Plastic waste is now so ubiquitous in the natural environment that scientists have even suggested it could serve as a geological indicator of the anthropogenic era.

So that, our college in association with Sweden Alumni Network India Maharashtra & Goa chapter decided to celebrate Plastic Free Week 2021 by a series of various programs and events which helped us to minimize the single use of plastics. It provided resources and ideas to help all to reduce single-use plastic waste every day at home, work and college in day today activities.

A detailed schedule of Plastic-free Week 2021,

Event	Name of Person	Topic	Date & Time
Day 1 Kick-Off	Mr. Niklas Dahlberg Manager Sweden Institute	Sweden Alumni Networks worldwide and Networks worldwide impact through the plastic-free week.	(18/10/2021) 15:30 - 16:30 IST
Day 2 Webinar on Plastic free world	Mrs. Sabita Agarwal Adrish Zero Waste Organic Lifestyle chain	Plastic Pollution and Sustainable products	(19/10/2021) 15:30 - 16:30 IST
Day 3 One habit a week challenge	Dr. Jeevan Dhumal Asst. Prof. at RJSPM's College of Pharmacy, Dudulgaon	Plastic-free world by Habit change	(20/10/2021) 15:30 - 16:30 IST
Day 4 One room a week challenge	Therese Cederblom Sales Manager @ Swedish Plastic Recycling	Plastic Free Hangout about Site Zero - Europe's largest and most effective plant for plastic recycling	(21/10/2021) 17:30 - 18:30 IST
Day 5 Art-work out of Plastic	Tejshree Chavan Director: INNSET	Art-work out of Plastic waste challenge	(22/10/2021) 15:30 - 16:30 IST
Day 6 Plastic Collection Drive	Dr. Jeevan Dhumal Asst. Prof. at RJSPM's College of Pharmacy	Plastic Collection Drive	(23/10/2021) 15:30 - 16:30 IST
Day 7 Closing Ceremony	Mr. Erik Malmberg Consulate General of Sweden (Mumbai)	Insights of program	(24/10/2021) 15:30 - 16:30 IST

Need of Awareness Programmes to Avoid the Use of Single Use Plastics

- From 1950s to 70s, only small amount of plastic was produced, so plastic waste was relatively manageable. By the 1990s, plastic waste generation had more than tripled in two decades, following a similar rise in plastic production. In early 2000s, our output of plastic waste raised more in single decade than it had in the previous 40 years. Today we produce about 300 million tons of plastic waste every year. That's nearly equivalent to the weight of entire human population.
- Researchers estimate that more than 8.3 billion tons of plastic has been produced since the early 1950s. About 60% of that plastic has ended up in either a landfill or the natural environment.
- More than 99% of plastics are produced from chemicals derived from oil, natural gas and coal — all of which are dirty, non-renewable resources. If current trends continue, by 2050 the plastic industry could account for 20% of the world's total oil consumption. These single-use plastic products are everywhere. For many of us, they've become integral to our daily lives.
- We need to slow the flow of plastic at its source, but we also need to improve the way we manage our plastic waste. Because right now, a lot of it ends up in the environment.
- Only 9% of all plastic waste ever produced has been recycled. About 12% has been incinerated, while the rest 79% has accumulated in landfills, dumps or the natural environment. Drink bottles, bottle caps, food wrappers, grocery bags, drink lids, straws and stirrers were the next most common items. Many of us use these products every day, without even thinking about where they might end up.
- Rivers carry plastic waste from deep inland to the sea, making them major contributors to ocean pollution. Most plastic items never fully disappear; they just get smaller and smaller. Many of these tiny plastic particles are swallowed by farm animals or fish that mistake them for food, and thus can find their way onto our dinner plates. They've also been found in a majority of the world's tap water.
- By clogging sewers and providing breeding grounds for mosquitoes and pests, plastic waste especially plastic bags can increase the transmission of vector-borne diseases like malaria.

Name of Activity: "PLASTIC FREE WEEK 2021"

To create awareness of all these problems associated with increased use of plastics and to minimise the potential harmful effects of plastic on environment our college RJSPM's College of Pharmacy has organised Plastic-free Week 2021 in association with Sweden Alumni Network from 18 to 24 October 2021. Activities in this week were an interactive online and offline session to give thought, spread awareness about to avoid the use of single use plastic.

- **Name of the activity:** Day 1 Kick-Off
- **Organisers:** RJSPM's College of Pharmacy in association with Sweden Alumni Network
- **Date:** (18/10/2021)
- **Speaker :** Mr. Niklas Dahlberg (Manager Sweden Institute)
- **Topic:** Sweden Alumni Networks worldwide and Networks worldwide impact through the plastic-free week.
- **Number of Participants:** 75
- **Summary:**

On day 1 on 18/10/2021, Mr. Niklas Dahlberg (Manager Sweden Institute) introduced the different programme of week and given information regarding the plastic pollution & different problems associated with plastic use. Topic of webinar was, "Sweden Alumni Networks worldwide and Networks worldwide impact through the plastic-free week." Mr. Niklas introduced about the institute & role of institute to reduce the use of plastic. He has given in brief idea about the various problems associated with increased use of plastic and their harmful effect on environment. Around 75 participants joined the webinar and taken advantage of this day 1 activity. Overall event was well organised and successfully completed.

Name of the activity: Day 2- Webinar on Plastic free world

- **Organisers:** RJSPM's College of Pharmacy in association with Sweden Alumni Network
- **Date:** (19/10/2021)
- **Speaker:** Mrs.Sabita Agarwal (Adrish Zerowaste Organic Lifestyle chain)
- **Topic:** Plastic Pollution and Sustainable products
- **Number of Participants:** 65
- **Summary:**

On day 2, Mrs. Sabita Agarwal from Adrish Zero Waste Organic Lifestyle chain had given information regarding "Plastic Pollution and Sustainable products" through webinar. She discussed that Single-use plastic products (SUPP) pollution is a serious issue that needs urgent and sustained attention at all levels of society. Plastic pollution is a major environmental issue that we must urgently address given the scale of the problem and our increasing levels of consumption. We need bold action and commitment at all levels. Around 65 participants joined the webinar and taken advantage of this activity. Overall event was well organised and successfully completed.

Name of the activity: Day 3- One habit a week challenge

- **Organisers:** RJSPM's College of Pharmacy in association with Sweden Alumni Network
- **Date:** (20/10/2021)
- **Speaker:** Dr.Jeevan Dhumal, Asst. Prof. at RJSPM's College of Pharmacy, Dudulgaon
- **Topic:** Plastic-free world by Habit change
- **Number of Participants:** 100
- **Summary:**

On day 3, Dr. Jeevan Dhumal, Asst. Prof. at RJSPM's College of Pharmacy has discussed on topic "Plastic-free world by Habit change". He told us about simple things for replacing one disposable product (e.g. made of plastic) with another disposable product made of a different material (e.g. paper, biodegradable plastic). He discussed about how he kicked the Plastic Habit and how we can too. He guided us about how to live a Plastic-Free Life by changing habit like, carrying reusable shopping bags, carry your own containers for take-out food and etc. More than 100 participants were joined the webinar. Overall event was well organised and successfully completed.

Name of the activity: Day 4- One room a week challenge

- **Organisers:** RJSPM's College of Pharmacy in association with Sweden Alumni Network
- **Date:** (21/10/2021)
- **Speaker:** Ms. Therese Cederblom (Sales Manager Swedish at Plastic Recycling)
- **Topic:** Plastic Free Hangout about Site Zero - Europe's largest and most effective plant for plastic recycling
- **Number of Participants:** 75
- **Summary:**

On day 4, Ms. Therese Cederblom, Sales Manager Swedish at Plastic Recycling has given information about plastic recycling. She shared information that plastic recycling is the reprocessing of plastic waste into new and useful products. When performed correctly, this can reduce dependence on landfill, conserve resources and protect the environment from plastic pollution and greenhouse gas emissions. Recycling is necessary because almost all plastic is non-biodegradable and thus builds-up in the environment, where it can cause harm. Around 75 participants joined the webinar and taken advantage of this day 4 activity. Overall event was well organised and successfully completed.

- **Name of the activity: Day 5- Art-work out of Plastic waste challenge**
- **Organisers: RJSPM's College of Pharmacy in association with Sweden Alumni Network**
- **Date: (22/10/2021)**
- **Speaker: Tejshree Chavan (Director: INNSET)**
- **Topic: Art-work out of Plastic waste challenge**
- **Number of Participants: 75**
- **Summary:**

On day 5, Tejshree Chavan, Director of INNSET has shown different ideas about art-work out of plastic waste. She explained about how participants can participate in the competition and what he can do. Through this event participant was asked to involve in various activities as follows,

A) Prepare artwork from plastic.

E.g. Participants can prepare a pen holder from a plastic bottle.

Participants can find many artworks prepared from plastic on youtube.

B) Change the habit of using products made out of plastic to more sustainable products and/or refuses to use plastic.

E.g. One can carry a cotton bag instead of a plastic bag for the grocery.

C) Select one room of choice and reuse, refuse or replace plastic used in that room.

E.g. If one take kitchen as room of your choice, please see which things are made out of plastic and if you could replace them with more sustainable products e.g. Copperwares etc.

Participants shared their photos, videos and/or experiences on social media and sent a screenshot of likes one got on their shared post.

Idea behind it was that participants who reach out to more people and try to create more impact will get awarded.

Many students from our college has participated actively in this event and shown their artistic mind and creativity. Some students created beautiful art from waste plastic materials such as wall show piece and beautiful pot or planting trees. Some of our students created videos regarding minimising the use of plastic and shared such things on social medias. There was great response from students for this type of event and initiative was taken from faculty to motivate students in such innovative type of events.

Name of the activity: Day 6- Plastic collection Drive

- **Organisers:** RJSPM's College of Pharmacy in association with Sweden Alumni Network
- **Date:** (23/10/2021)
- **Topic:** Plastic collection Drive
- **Number of Participants:** 30
- **Summary:**

On day 6, Plastic collection drive, all the departments of RJSPM's college of pharmacy actively participated in this activity. The plastic collection drive was conducted at college campus between 2:00 pm and 4:00 pm.

Teaching as well as on teaching and administrative faculty informed to collect waste plastic from their department or working area. For this event initiative was taken by Dr. Jeevan Dhumal sir and Principal Prof. Amol Kumbhar sir. As per instructions all faculty collected all the waste plastic materials in a carton and submitted to the organiser of this event. By this activity all the staff of RJSPM's College of Pharmacy motivated to minimise the use of plastic and replace the plastic things by non plastic materials.

The activity was organized with the prior permission and guidance of Hon. Campus director Prof. Kiran chudhari and Principal Prof. A. B. Kumbhar of RJSPM's College of Pharmacy, Dudulgaon, Pune. The event was carried out on Tuesday, 26^h September, 2017 at 10.30 am to 12.30 pm.

Swachh Bharat Abhiyan (Clean India Mission) is a campaign by the Government of India to clean the streets, roads and infrastructure of the country's 4,041 statutory cities and towns. It includes ambassadors and activities such as run, national real-time monitoring or spread of updated NGOs practices.

The campaign was officially launched on 2 October 2014 at Rajghat, New Delhi, by Prime Minister Narendra Modi. It is India's largest ever cleanliness drive with 3 million government employees, and especially school and college students from all parts of India, participating in the campaign.

The objectives of Swachh Bharat are to reduce or eliminate open defecation through the construction of individual, cluster and community toilets. The Swachh Bharat mission will also make an initiative of establishing an accountable mechanism of monitoring latrine use. The government is aiming to achieve an Open-Defecation Free (ODF) India by 2 October 2019, the 150th anniversary of the birth of Mahatma Gandhi, by constructing 12 million toilets in rural India, at a projected cost of 1.96 lakh crore (US\$30 billion).

The celebration began with a Cleanliness Drive at 9:30 am. Around 50 NSS volunteers along with few teaching, non teaching staff from all the departments have participated in cleaning of ground processes. In a very systematic manner, all the students got divided in different groups and allotted a separate area like garden and corridors in college campus with sufficient number of dust bins and garbage bags. A neat and clean atmosphere was created within two hours and every corner of the campus ground has been observed as dust garbage free.

The "Shauchalaya Nirman" Awareness Rally began at 11:30 am. The rally was headed by Prof. Ghansham sakhare Nss Program officer. Campus Director Kiran Chaudhari sir guided us about the concept. Principal Prof. A.B. Kumbhar and other teaching staff were present during inauguration of rally. With strong appealing slogans and effective messages on "Shauchalaya Nirman", the rally took one complete round of the college campus waking up every mind and making them aware about the very necessary information regarding the "Shauchalaya Nirman"

2/4

The last event was the main crowd puller of the day i.e. Street Play based on theme of "Shauchalaya Nirman" which was enjoyed by common public and strong message was given to students about "Shauchalaya Nirman"
